

SOLIS Barista Perfetta Plus

Type 1170

Compact elegance for your *perfetta* coffee. It fits into the smallest kitchen, is ready in just 40 seconds and provides the perfect, stable brewing temperature. We have left nothing to chance in our choice of materials and components.

Manometer

Keep everything under control with the manometer; it indicates the optimal extraction pressure.

Stability & control with PID

Adaptive PID provides multiple temperature control to fully develop the aromas of your coffee.

Low pressure pre-infusion

The soft pre-infusion gently moistens ground coffee under low pressure for a balanced extraction at high pressure.

Steam & hot water wand

Professional 360-degree-steam & hot water wand creates barista-quality microfoam with a sweet, balanced taste.

1,7-litre water tank

Easily removable 1,7-litre water tank including BRITA INTENZA water filter to improve the water quality and coffee taste.

Smart maintenance

Detects when cleaning is due and increases the life span with automatic rinse cycles.
