Solis AirVolution

Extremely light-weight, yet ultra powerful hairdryer with smart technologies:

SOLIS AirVolution

Available: September 2023

Type: 3804
Art. no.: 96965

So Swiss, so Solis.

Solis AirVolution

High-speed brushless motor

With a staggering 110,000 RPM for a strong air flow of up to 66 m/s and an increased air output.

TFT-LCD display

The high-definition display informs the user of the operating status and data in operation.

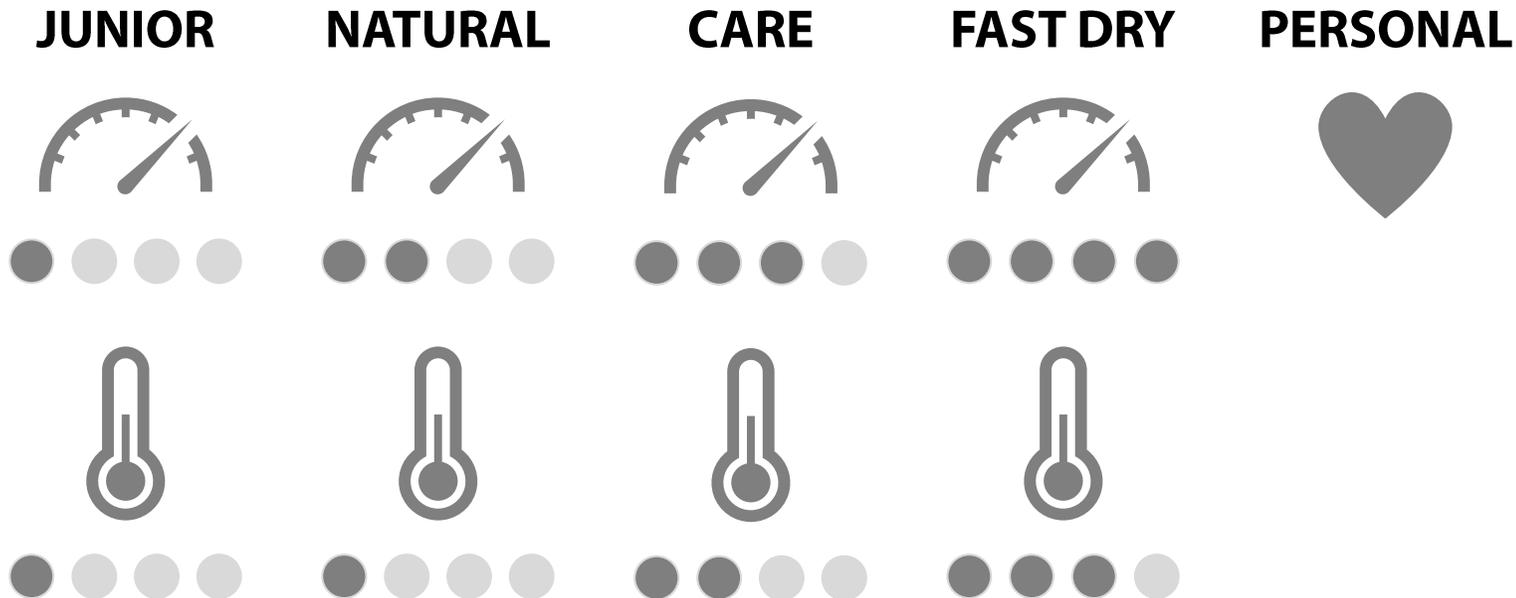

Smart thermo monitor

Thermo-monitoring system scans 40 times per second, providing a consistent heat output.

So Swiss, so Solis.

Solis AirVolution

4 default modes, 1 personal mode

Junior, Natural, Care and Fast Dry.
Personal mode for various hair textures, styles and drying applications.

Light weight

The AirVolution's light weight of only 325 g prevents premature fatigue during prolonged hair drying sessions.

So Swiss, so Solis.

Solis AirVolution

Super-dense negative ions

Ideal for the improvement of hair quality.

Self-clean program

The self-clean program is activated automatically after every 40 hours of use.

Auto cycle mode

Hot air flow for 5 seconds followed by cold air flow for 2 seconds to avoid damage to hair.

Memory function

The last operation mode is memorized at each shutdown and will resume upon next startup.

So Swiss, so Solis.
