

DEEBOT X11S OmniCyclone

Xtra in Every Way, Ahead in Every Play

Perpetual Run with PowerBoost Charging

Perpetual Runtime, Consistent Performance:

DEEBOT X11's revolutionary PowerBoost Technology transforms your cleaning experience through ultra-fast energy boosts and non-stop cleaning freedom.

Its self-optimizing algorithm dynamically reserves power to prioritize full-space completion, while the PowerBoost Technology can rapidly restore around 6% of battery during 3 min of routine mop cleaning intervals, powering up the next cleaning period. As a result, DEEBOT X11 enables an intelligence-driven perpetual run for truly uninterrupted cleaning coverage, even at max settings, ensuring consistent performance across large areas without manual intervention.

OZMO ROLLER 2.0 with TruEdge 3.0

Deep Clean Every Inch, Effortlessly:

OZMO ROLLER 2.0 empowers DEEBOT to effortlessly remove stubborn stains with continuous water infusion, keep the mop fresh and ensure hygienic cleaning. Thanks to the 3800Pa pressure intensity, 200rpm high rolling speed, new heavy duty cleaning solution (sold separately) and the upgraded high-density-nylon mop roller, DEEBOT can now remove stains like magic—while being gentle on floors.

With upgraded TruEdge 3.0 technology, featuring an air-cushioned roller with an extra 1.5cm reach and two soft rubber edge-gliding wheels, DEEBOT is now able to glide along baseboards like a whisper, achieving maximum cleaning coverage with zero user effort needed.

TruePass Adaptive 4WD Climbing System

Seamless Threshold Crossing:

The TruePass Adaptive 4WD Climbing System adopts an innovative mechanical climbing system to guarantee reliable crossing over most household thresholds. When facing impassable obstacles, the robot instantly deploys two auxiliary climbing levers. Their soft rubber gripping teeth can firmly latch onto surfaces—dramatically boosting climbing ability to handle a single stage up to 2.4cm height and continuous stages up to 4cm height.

Unlike vision-based systems, this purely mechanical structure activates immediately upon contact, ensuring flawless, on-time engagement and eliminating missed or failed climbing attempts for truly seamless cleaning.

AGENT YIKO

Your Smartest Cleaning Companion

The next-gen Autonomous AI Agent transcends conventional systems through deep thinking and self-directed management. Beyond reactive assistance, AGENT YIKO proactively anticipates cleaning needs by cross-referencing user preferences, user routines, room layouts and object density, and continuously fine-tuning critical settings—suction, water flow, cleaning path, cleaning order, etc.—accordingly.

The outcome? Truly autonomous management that thinks ahead, not reacts. From effortless onboarding to daily refinement, it unlocks DEEBOT's full potential with zero manual intervention.

OmniCyclone Station

Reinventing How You Clean :

ECOVACS leads the industry with the first-ever integration of PureCyclone 2.0 Auto-Empty Technology in the OMNI Station—forever liberating users from bag replacements. The OmniCyclone's advanced dual-stage cyclonic separation design delivers consistently powerful suction over time - after a full dust collection cycle, the suction loss of OmniCyclone dustbin is only about 1% of that seen with a traditional dust bag (which suffers an over 60% loss !).

The first-ever bagless design makes DEEBOT more eco-friendly and sustainable. With a spacious 1.6L dustbin, DEEBOT can run up to 48 days with minimal maintenance—offering a more convenient cleaning experience.

DEEBOT X11S OmniCyclone

Key Technologies

Cleanliness	Intelligence	Convenience
- OZMO ROLLER 3.0 - 50% Longer Mop Roller with Pressurized Self-Washing - TruEdge 3.0 Extreme Edge Cleaning 16l/s BLAST + 30.000 Pa - ZeroTangle 4.0 Airflow-directed Anti-tangle Technology - Fresh Flow Power Washing + Dirty Water Auto Emptying 15mm Mop Lifting	- AGENT YIKO 2.0 Mobility - TruePass Adaptive 4WD Climbing System, single/continuous: 24/40mm - AIVI 3D 4.0 – Approach or Distance Strategy	- All-in-One Bagless OmniCyclone Station - PowerBoost Charging - All-Dimensional Noise Reduction 95mm ultra-thin body - Mobile App with Easy Mode

Specification

DEEBOT X11S OmniCyclone EU	
Battery	Li-Ion, 4000 mAh
SRP	999 €
Charging Time	2h 30min
Dimension with product packaging	62.5*45.7*39.8cm
Dimension of Robot	35.3*35.1*9.5cm
Dimension of Station	38*33.5(49.3)*46.5cm
Dust Bag (Station)	1.6
Dust Container	250 ml
Navigation Type	Mini-ToF
Noise level Robot (vacuum & mop)	60 db
Obstacle Avoidance	Structured light,RGB AI+Supplementary Light
Runtime (Vacuum & Mop) Standard suction	infinitely recyclable
Suction Power	30000Pa, 16 L/s
Watertank size – Station	3.5(clean)/2.7*(dirty)
Watertank size – Robot	110ml
Working voltage (V) Robot	16.6V
Rated Power (W) Robot	65W
Weight Net Kg	15.88
Weight with product packaging kg	20.36
EAN	6979463772103

What is in the box?

Robot (pcs)	1
OMNI Cyclone Station	1
Power cord (pcs)	1
User Manual (pcs)	1
Quick guide (pcs)	1
Replaceable Long Roller Mop (pcs)	1
Side brush (pcs)	1
Main brush & Main Brush Cover (pcs)	1
Antibacterial Filter (pcs)	1
Clean water tank (pcs)	1
Dirty water tank (pcs)	1
Deebot Normal Cleaning Solution (260ml)	1
Deebot Heavy Duty Cleaning Solution (260ml)	1
