Galaxy XCover6 Pro

Compact, reliable and robust – the Galaxy XCover6 Pro

Indispensable, rugged comfort for all business requirements. The Galaxy XCover6 Pro is designed for use in extreme conditions. Certified to US Military Standard MIL-STD-810H and IP68, its compact design combines high security with ease of use. Thanks to the DeX solution, the XCover6 Pro can be connected to an external monitor and act as a PC. In addition, documents are downloaded at maximum speed with the latest Wi-Fi 6E and 5G.

Reliable support for every job

There are jobs where you need to be able to rely 100% on your tools. Even if the working conditions are uncomfortable. The Galaxy XCover6 Pro with a replaceable 4,050 mAh battery is a reliable companion in any situation. Drop-protected to US military standard MIL-STD-810H up to 1.5 m drop height and certified to IP68, it withstands dust, dirt and sand as well as 30 minutes of continuous submersion in 1.5 m deep water. The 50 MP main camera with dual-LED flash brings more light into the darkness everywhere.

Operable in any environment

Where employees need to do their job with maximum protection, the compact Galaxy XCover6 Pro with its 6.6" display comes in handy. It can be operated with gloves at any time, even in damp environments and in light rain and snow. A particularly practical feature is the programmable button of the Galaxy XCover6 Pro that can be assigned with any number of functions that can be easily called up at the touch of a button, e.g. for the push-to-talk function. In addition, thanks to the Knox Capture, personnel can scan barcodes and capture data efficiently.

On the go with security

Business data on smartphones should never fall into the wrong hands. That's why the Galaxy XCover6 Pro comes with Samsung Knox as standard. Active as soon as the phone is switched on, the smart security platform automatically and continuously monitors security. A multi-level process in software and hardware protects against various intruders, malware and other threats. In addition, thanks to the Enterprise Edition, the Galaxy XCover6 Pro receives regular security updates for 5 years from launch.
