High-quality entertainment

On the Galaxy Tab A9 and Tab A9+, you can enjoy your content in excellent quality at a brightness of up to 570 nits. The new 11-inch display of the Galaxy Tab A9+ supports an exceptionally smooth and seamless viewing experience at 90 Hz. The intelligently placed front camera allows you to make video calls in your preferred format, and the dual (Tab A9) or quad (Tab A9+) speakers with Dolby 3D Surround Sound ensure a cinema-like experience of movies and series.

Practical design

The ultra-slim metal casing of the Galaxy Tab A9 and Tab A9+ provides an elegant look as well as improved durability. The matte surface, which offers a perfect grip, and the tablet's weight of just 333 g (A9) or 480 g (A9+) make it a practical, handy everyday companion. The Galaxy Tab A9 series is available in Graphite, Silver and Navy.

The ultimate family tablet

The new Galaxy Tab A9 series is equipped with a better processor and increased storage space, bringing a massive increase in performance. Samsung Kids Mode offers child-friendly content, protecting children from potentially harmful content while surfing. What is more, the tablet can easily be connected to the Book Cover Keyboard (available separately), turning it into a practical replacement for a notebook.
