

## 10-Port Industrial Gigabit L2 Managed PoE+ DIN-Rail Switch 24 - 57V

## TI-PG102i (v1.0R)

- $8 \times$ Gigabit PoE+ ports
- $2 \times$ SFP slots
- Supports 100/1000Base-FX fiber SFP modules
- PoE power budget: 240W@48VDC or 124W@24VDC
- PoE alive check restarts unresponsive PoE powered devices
- 20Gbps switching capacity
- Hardened IP30 rated metal housing
- Includes DIN-rail mounting bracket
- Operating temperature range of $-40^{\circ}-75^{\circ} \mathrm{C}\left(-40^{\circ}-167^{\circ} \mathrm{F}\right)$
- Supports LACP, STP/RSTP, VLAN, and IGMP Snooping
- IEEE 802.1p QoS with queue scheduling support
- Bandwidth control per port
- Dual redundant power inputs with overload current protection
- Alarm output triggered by power failure
- Power supply sold separately (models: TI-S24048, TI-S48048, TI-S12024)

TRENDnet's 10-Port Industrial Gigabit L2 Managed PoE+ DIN-Rail Switch, model TI-PG102i, features eight Gigabit PoE+ ports with a 240 W PoE budget, and includes two SFP slots that support both 100Base-FX and 1000Base-FX modules for long distance fiber applications. The hardened switch is equipped with an IP30 rated metal enclosure, designed to withstand a high degree of vibration and shock, while operating within a wide temperature range of $-40^{\circ}-$ $75^{\circ} \mathrm{C}\left(-40^{\circ}-167^{\circ} \mathrm{F}\right)$ for industrial environments. Advanced traffic management controls, troubleshooting, and SNMP monitoring support make this a powerful solution for SMB networks.

## PoE Power

A 240W PoE power budget supplies up to eight Power over Ethernet devices, and includes advanced PoE port controls such as enabling / disabling PoE, power priority, PD alive check, and power scheduling.

Integration Flexibility
Managed features include access control lists, VLAN, IGMP snooping, QoS, RMON, SNMP trap, and syslog for monitoring and flexible network integration.

Industrial Design
Equipped with an IP30 rated metal enclosure, designed to withstand a high degree of vibration and shock, while operating within a wide temperature range of $-40^{\circ}-75^{\circ} \mathrm{C}\left(-40^{\circ}-167^{\circ} \mathrm{F}\right)$ for industrial environments.

## Networking Solution

TI-PG102i

Network Ports
$8 \times$ Gigabit PoE+ ports, $2 \times$ Gigabit SFP Slots

PoE Power
Supplies up to 30 W of PoE+ power per port with a 240 W power budget

Full PoE Control Per Port
Available PoE port controls include enabling / disabling PoE, power priority, PD alive check, and power scheduling

Traffic Management
Managed features include 802.1Q, MAC \& Port Isolation VLAN, IGMP Snooping, per port bandwidth control / 802.1p / DSCP / Queue Scheduling (SPQ / WRR), STP / RSTP spanning tree, and link aggregation for flexible network integration

System Monitoring
Monitoring features include SNMP v1 / v2c / v3, MIB support, SNMP trap, RMON Groups (1, 2, 3, 9), SMTP alert, syslog, port mirroring, and SFP DDMI

DIN-Rail Mount
IP30 rated metal enclosure includes DIN-rail mounting bracket

Switching Capacity 20Gbps switching capacity

## ( 1

## Access Control

Managed access control features include ACLs, IP-MAC-Port binding, ARP inspection, 802.1X RADIUS, MAC address learning, DHCP snooping and IP Source Guard provides layered network access controls

』ת. Redundant Power
Dual redundant power inputs with overload current protection (power supply sold separately: TI-S24048, TIS48048, TI-S12024)

## Alarm Relay

Alarm relay output triggered by power failure of primary and / or redundant power

Jumbo Frame
Sends larger packets, or Jumbo Frames (up to 10KB), for increased performance

Wide Temperature Range
A wide operating temperature range of $-40^{\circ}-75^{\circ} \mathrm{C}\left(-40^{\circ}-167^{\circ} \mathrm{F}\right.$ ) allows for installations in extreme hot or cold environments

Shock and Vibration Resistant
Rated for shock (EN 60068-2-27), freefall (EN 60068-2-32), and vibration (EN 60068-2-6)

## Grounding Point

Grounding point protects equipment from external electrical surges

TI-PG102i

## PACKAGE CONTENTS

- TI-PG102i
- Quick Installation Guide
- Removable terminal block
- DIN rail mounting bracket

TRENDnet offers a lifetime warranty for all of its metal-enclosed network switches that have been purchased in the United States/Canada on or after 1/1/2015. Cooling fan and internal power supply carry a one-year warranty.

All references to speed are for comparison purposes only. Product specifications, size, and shape are subject to change without notice, and actual product appearance may differ from that depicted herein.
